

Aaron Maldonado

Bronx, NY • maldoaaron03@gmail.com • (347) 453-4486

Education

Bucknell University

Bachelor of Science in Computer Engineering

Lewisburg, PA

May 2025

Relevant Coursework:

- Algorithm Design & Analysis
- Probabilities System & Data Analysis
- Data Structures & Algorithms

Certifications

Google Data Analytics Professional Certificate

- “Gain an immersive understanding of the practices and processes used by a junior or associate data analyst in their day-to-day job”
 - “Learn key analytical skills (data cleaning, analysis, & visualization) and tools (spreadsheets, SQL, Python, Tableau)”
 - “Understand how to clean and organize data for analysis, and complete analysis and calculations using spreadsheets, SQL and Python”
- (<https://www.coursera.org/professional-certificates/google-data-analytics>)

Relevant Work Experience

Senior Capstone Project

Lewisburg, PA

August 2024 - May 2025

Data Monitoring & Control System

- Designed and implemented a real-time data monitoring system to collect, process, and analyze performance metrics.
- Built a remote interface enabling rapid adjustments based on incoming data trends and system feedback.
- Emphasized data accuracy, system reliability, and actionable insights in a real-world operating environment

Concorde Education

New York, NY

Robotics / Web Development Instructor

October 2025 – Present

- Led structured, results-driven sessions requiring clear communication, performance evaluation, and adaptive problem-solving.
- Assessed participant progress using measurable outcomes and adjusted instruction based on observed performance.

Leadership & Activities

National Society of Black Engineers

Lewisburg, PA

Senator

August 2024 – May 2025

- Served as a NSBE Chapter Senator, representing my chapter at the NSBE National Conference by voting on amendments, participating in House of Delegates sessions, and providing input on national policies and initiatives.
- Collaborated with regional and national leadership to ensure chapter interests were communicated and helped shape the organization’s strategic direction.

Skills

Data & Analysis: Python, MATLAB, data processing, performance tracking

Technical: Java, C, GitHub, systems integration

Operations: Decision-making under pressure, workflow
